SITUATION SUMMARY

Cal OES Activation Status

- The State Operations Center (SOC) is activated at Level 2.
- The Coastal REOC is activated at Level 1.
- The Inland REOC is activated at Level 2.
- The Southern REOC is activated at Level 1.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought
- On 09/11/15 three Drought Declaration Continuations were received from Sutter County with the following dates: 08/12/15, 08/21/15, and 09/10/15.

Weather of Concern

Daytime highs will begin a slow decline statewide this weekend. Temperatures will drop both Saturday and Sunday but still remain a few to several degrees above normal for mid-September. Most of the week next week, however, will see near or BELOW normal temperatures. A plume of moisture will continue to stream in from the south-southeast from remnants of Hurricane LINDA off the BAJA California coast. This will lead to widely scattered thunderstorms across much of Southern California mountains, valleys, off shore waters and deserts. The main threats from these storms will be brief heavy rain, gusty downdrafts, and deadly cloud to ground lightning.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

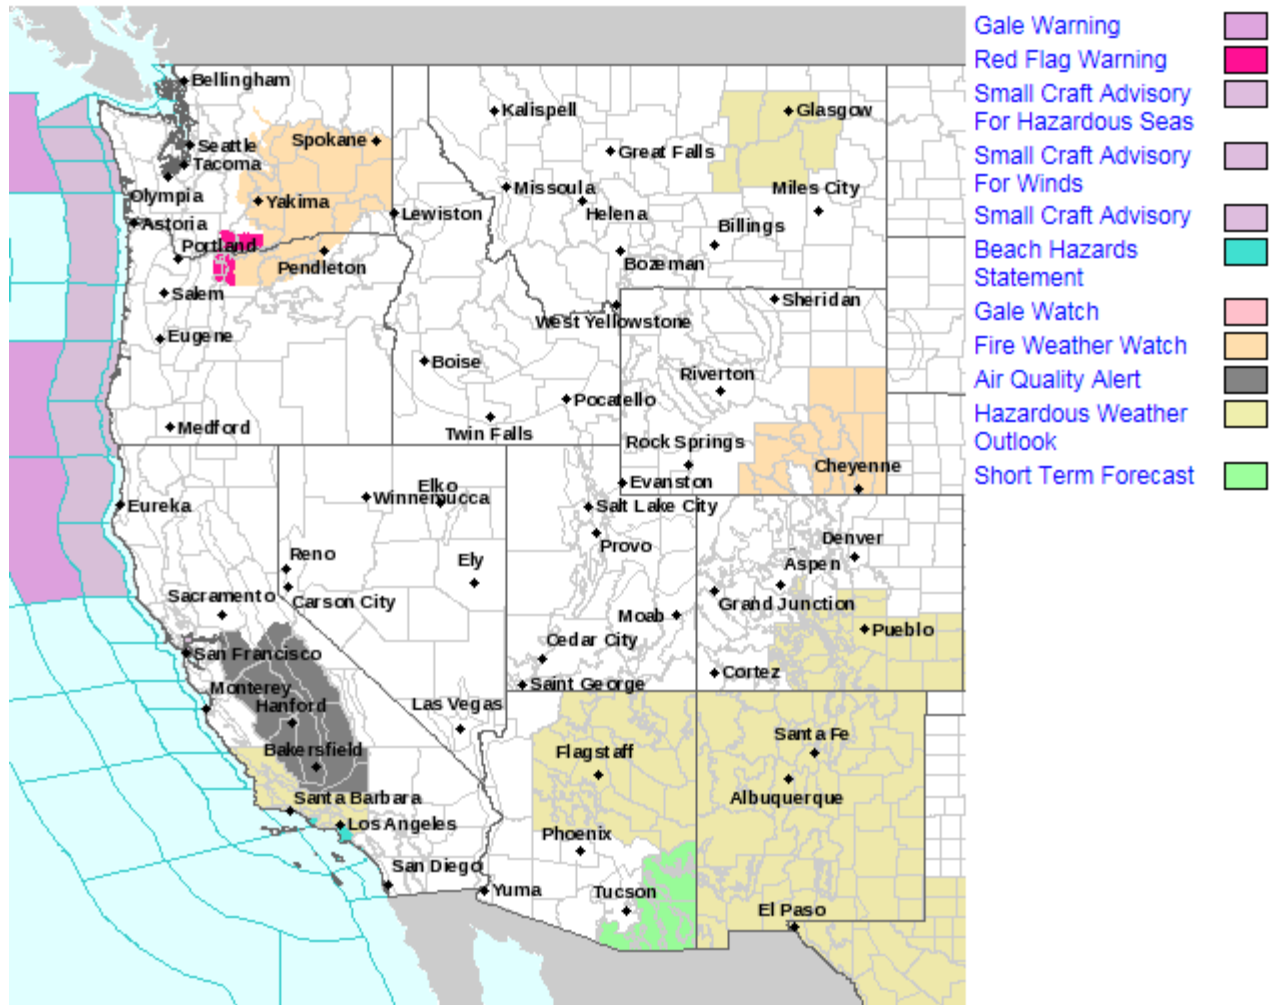

Strong high pressure over the Northern California will begin to weaken today. A southerly flow aloft is already bringing subtropical moisture northward into the region, and this pattern will continue through Monday. Isolated showers or thunderstorms are possible over the higher terrain late today. Northern and western mountainous areas will have a chance of mostly dry thunderstorms on Saturday, with lesser chances over the higher terrain in the east. Thunderstorms will become more widespread Saturday night and Sunday, and gradually produce more rainfall. But, new ignitions will still be possible in many areas with this pattern. On Monday thunderstorms will be concentrated in northern areas and produce more rainfall, with 0.25-0.50 inches possible with any direct hit. A cold front approaching from the northwest will cause increasing south to west winds on Monday, and the front will combine with the subtropical moisture to produce widespread showers and thunderstorms Monday night and Tuesday. Another front will bring more rainfall Wednesday night and Thursday.

SOUTHERN CALIFORNIA

A slow cooling and drying trend will unfold during the next few days as the ridge overhead begins to weaken. Expect highs to range from the upper 80s at the coast and in the mountains over 7,000 feet to 100-105 in the valleys today. Temperatures Saturday and Sunday should edge downward 1-3 degrees each day. Much of the moisture from "Linda" has been pulled offshore, but isolated thunderstorms will still be possible in the mountains, mainly from Los Angeles County south and eastward this afternoon. Storm movement will be a bit faster than the past few days and a general westward movement of 10-15 mph of individual cells can be expected. Minimum relative humidity will be a bit lower over Southern California with minimums slipping into the upper teens in the mountains. Winds will remain light. This weekend, a weak disturbance off the coast may steer moisture back into the state Saturday night into Sunday. Only a handful of storms are expected over Southern California Saturday, but on Sunday, isolated thunderstorms may expand into the Sierras and all the mountains of Southern California. One or two storms may occur across the Central Coast Sunday afternoon. Most of the storms will produce brief rainfall during the next few days. Monday, a trough will approach the state, bringing much cooler weather. A few storms may occur in the eastern deserts Monday, but the rest of the area should remain storm-free next week. Temperatures will drop to near, or even slightly below, normal Tuesday. A second trough will reinforce cooler, onshore flow toward the end of next week. It will be windy in and near the deserts each afternoon. The mountains will see a 15-25 mph general wind at higher elevations which may result in holdover fires becoming more active by Monday or Tuesday. No storms are expected after Monday and no further convection is expected for the following 7-10 days.

SITUATION SUMMARY

FIRES, NORTHERN OPERATIONS AREA

Butte, Vegetation Fire, Amador and Calaveras County

Major impacts:

Infrastructure

- CUEA reports that PG&E lost transmissions lines which affect power for 11,200 customers. PG&E is working on two mobile generation solutions to pick up additional customers, this ongoing.
- Cell service has 3 towers working off generators providing full service, 2 additional towers are being worked on with no ETA.
- Per the Cal OES Critical Infrastructure Protection (CIP) Division: There is no CIP-identified state critical infrastructure within ten miles of the current Butte Fire burn area. However there is a 99MW hydroelectric plant and associated PG&E substation within the fire perimeter, and two Public Safety Communications towers within 1 mile of the current perimeter.
- There is a threat to two wooden water flumes which are owned by Calaveras County Public Utilities. The flumes also provide water to East Bay Municipal Utilities District (EBMUD).
- Per Cal OES Public Safety Communications: The communications site Sierra Vista has burned over due to the Butte Fire. State agencies who are in that site are CALFIRE, Department of Transportation (DOT) and California Highway Patrol (CHP). A technician responded to the site to assess the damage.
 - Phone lines and power are down.
 - CALFIRE has a portable repeater being installed at the site. CALFIRE is operational.
 - CHP is using coverage of other sites. CHP is down because the repeater is phone line controlled.
 - DOT is operational.
- Per Cal OES Public Safety Communications: CAL-Fire TCU headquarters in San Andreas is currently being evacuated. PSC has a shop located within that facility. PSC technicians were evacuated out of the facility. A snowcat assigned to the facility was towed out and the test equipment was also removed by the technicians.
- Per the Cal OES Critical Infrastructure Protection (CIP) Division: There are seven CIP identified, state-level, critical infrastructure sites that meet the draft criteria and are within 10 miles of the fire – Amador County EOC, their Department of Public Health mail office, Calaveras County EOC, their Department of Public Health main office, the origin of the Mokelumne Aqueduct, the Pardee Dam and Reservoir, and the Jackson Creek Spillway and Dam. The buildings are vulnerable to fire but the two dams and aqueduct are generally less vulnerable to fire. Other infrastructure noted in the 10 mile radius are multiple PSC communications towers, 5 hydro power plants (99, 14, 4.5, 1.4, .23MW), multiple associated substations, multiple transmission lines (230, 115, 80, 60kV, +), and two natural gas lines (12 and 10 inch).

SITUATION SUMMARY

FIRES, NORTHERN OPERATIONS AREA

Butte, Vegetation Fire, Amador and Calaveras County

Major impacts:

Missions

- Mission # 2015-LAW-15806, 15 single person patrol cars are requested to assist with evacuations for the town of Mokelumne Hill
- Mission # 2015-IREOC-15822, Air Resources Board will provide 3 air monitors at the request of Amador County Air Pollution Control Officer to be placed in 3 locations: Sutter Creek Elementary School, 340 Spanish St., Sutter Creek, 95685; ACES Waste Services, 19801 Berry St., Pine Grove, CA 95665; and County Admin. Ctr. 810 Court St., Jackson Ca, 95642.
- Mission # 2015-IREOC-15818, 6 air monitors for the Calaveras Environmental Health who will coordinate locations with ARB. Currently, only two are available. One will be placed at Mountain Ranch Volunteer Station, 8041 Washington Street and one will be placed at Calaveras Consolidated Fire Department, 129 Hwy 12, Valley Springs.
- Mission # 2015-IREOC-15857, Portable Repeater 1 of the Calaveras Repeaters has lost power and is inaccessible due to the Fire. Calaveras County needs a repeater to bump communications up to the level prior as impacts have created spotty communications. Law enforcement and Ambulance personnel are having very difficult time speaking to each other. As of 1445 hours the repeater is enroute.
- EMMA Request Number 15830. This request is for 1 Eldorado County Emergency Manager to assist in the Calaveras County EOC.
- EMMA Request Pending for 3 Eldorado County personnel to assist at the Amador County Animal Shelter. Amador County is further coordinating 2 additional staff that is enroute from Sacramento County.
